

PLAN
of practical classes of Pathology
for the spring semester of 2023/2024 academic year

№	Topic of the lesson	Date	Number of hours
1	2	3	4
1	Modern methods and techniques of pathomorphological diagnosis.	according to the schedule	
2	Modern methods and techniques of pathomorphological diagnosis.	according to the schedule	
3	Basics of thanatology.	according to the schedule	
4	Basics of thanatology.	according to the schedule	
5	Molecular and ultrastructural cell pathology.	according to the schedule	
6	Cellular dystrophies.	according to the schedule	
7	Pathomorphology of accumulation of complex proteins and lipids.	according to the schedule	
8	Pathomorphological manifestations of accumulation of products of disturbed metabolism.	according to the schedule	
9	Damage and death of cells and tissues.	according to the schedule	
10	Apoptosis.	according to the schedule	
11	Disorders of blood and lymph circulation	according to the schedule	
	Disorders of hemostasis. Embolism.	according to the schedule	
12	Violation of ion-osmotic and water balance.	according to the schedule	
13	Violation of the acid-base state. Violation of tissue fluid balance.	according to the schedule	
14	Inflammation.	according to the schedule	
15	Inflammation.	according to the schedule	
16	Compensatory and adaptive processes.	according to the schedule	
17	Regeneration.	according to the schedule	
18	Precancerous conditions.	according to the schedule	
19	Introduction to oncomorphology.	according to the schedule	
20	Tumors of soft and other tissues.	according to the schedule	
21	Melanocytic tumors.	according to the schedule	
22	Tumors of the nervous system and brain membranes. Teratomas. Features of childhood tumors.	according to the schedule	

23	Epithelial organ-nonspecific tumors.	according to the schedule	
24	Epithelial organ-specific tumors.	according to the schedule	
25	Solving the package of test tasks "Step 1".	according to the schedule	
26	Final module control of the 1st semester.	according to the schedule	

Head of Pathology department
